List of participants ix

The Third International Workshop on Phosphorus in Sediments: Summary and Synthesis
by P. C. M. Boers, Th. E. Cappenberg & W. van Raaphorst xi

Session I: Chemical transformations of phosphorus in sediments, particularly with respect to exchange processes and permanent fixation

The chemistry of aquatic phosphate: inorganic processes in rivers
by L. E. Fox 1

Geochemical composition, phosphorus speciation and mass transport of fine-grained sediment in two Lake Erie tributaries
by M. Stone & M. C. English 17

A double-layer model for ion adsorption onto metal oxides, applied to experimental data and to natural sediments of Lake Veluwe, The Netherlands
by A. G. Brinkman 31

Iron-bound phosphorus in marine sediments as measured by bicarbonate-dithionite extraction
by H. S. Jensen & B. Thamdrup 47

Supply of phosphorus to the water column of a productive hardwater lake: controlling mechanisms and management considerations
by C. T. Driscoll, S. W. Effler, M. T. Auer, S. M. Doerr & M. R. Penn 61

Factors influencing fractional phosphorus composition in sediments of Spanish reservoirs
by P. Lopez & J. A. Morgui 73

The effect of decomposition of organic matter on phosphorus dynamics in experimental marine sediment systems
by C. P. Slomp, W. van Raaphorst, J. F. P. Malschaert, A. Kok & A. J. J. Sandee 83

Relationship between iron loading and phosphorus retention in shallow Danish lakes *(abstract)*
by P. Kristensen, M. Søndergaard, E. Jeppesen & H. S. Jensen 99

Phosphate compounds in sediments: 1. Inorganic and biological aspects *(abstract)*
by H. L. Golterman, I. M. de Graaf & C. J. de Groot 99

Phosphate compounds in sediments: 2. Organic aspects *(abstract)*
by C. J. de Groot & H. L. Golterman 100

Early diagenesis of phosphorus in recent sediments of the estuary and the gulf of St Lawrence *(abstract)*
by M. Lucotte 100

Seasonal variation in P-pools, porewater SRP and P-release in a coastal marine sediment *(abstract)*
by P. B. Mortensen, H. S. Jensen, E. K. Rasmussen & B. Thamdrup 101

Seasonal variations of P compounds and their concentrations in two coastal lagoons *(abstract)*
by T. Moutin, B. Picot, M. C. Ximenes & J. Bontoux 102

Session II: The role of microorganisms in sediment phosphorus dynamics in relation to mobilization and fixation of phosphorus

The role of microorganisms in mobilization and fixation of phosphorus in sediments
by R. Gächter & J. S. Meyer 103

The role of *Gloeotrichia echinulata* in the transfer of phosphorus from sediments to water in Lake Erken
by K. Pettersson, E. Herlitz & V. Istvánovics 123

Phosphorus composition and release in sediment bacteria of the genus *Pseudomonas* during aerobic and anaerobic conditions
by T. Waara, M. Jansson & K. Pettersson 131

The relative importance of biological and chemical processes in the release of phosphorus from a highly organic sediment
by C. de Montigny & Y. T. Prairie 141

Bio-availability of phosphorus in sediments of the western Dutch Wadden Sea
by V. N. de Jonge, M. M. Engelkes & J. F. Bakker 151

Pore water phosphorus and iron concentrations in a shallow, eutrophic lake – indications of bacterial regulation
Å. Eckerrot & K. Pettersson 165

Ecological significance of bacterial polyphosphate metabolism in sediments
by D. Davelaar 179

Tranformations between organic and inorganic sediment phosphorus in Lake Balaton
by V. Istvánovics 193

Extracellular phosphatase activity in sediments of the Breitenbach, a Central European mountain stream
by J. Marxsen & H.-H. Schmidt 207

P-flux regulation in sediments by coupled microbial processes *(abstract)*
by S. Heller 217

Suspended sediments as a source of P to summer biota of Lake Kinneret *(abstract)*
by A. Nishri 217

P-flux regulation in sediments by transport processes *(abstract)*
by W. Ripl 218

The role of microbial processes in the phosphorus flux regulation between sediments and water *(abstract)*
by A. J. C. Sinke, F. H. M. Cottaar, K. Buis & P. Keizer 218

Session III: Sediment–water dynamics with special attention for functional models describing fluxes of phosphorus across the sediment–water interface

Considerations in modeling the sediment–water exchange of phosphorus
by L. Lijklema 219

Sedimentation of phosphorus in limnetic and estuarine environments in the River Öre system, northern Sweden
by G. Forsgren & M. Jansson 233

Sorption of phosphate by sediments as a result of enhanced external loading
by R. Portielje & L. Lijklema 249

In situ phosphorus release experiments in the Warnow River (Mecklenburg, northern Germany)
by A. Kleeberg & G. Schlungbaum 263

Sulfate control of phosphorus availability in lakes: a test and re-evaluation of Hasler and Einsele's model
by N. F. Caraco, J. J. Cole & G. E. Likens 275
Application of SWITCH, a model for sediment–water exchange of nutrients, to Lake Veluwe in The Netherlands
by J. G. C. Smits & D. T. van der Molen 281
Measurement and verification of rates of sediment phosphorus release for a hypereutrophic urban lake
by M. T. Auer, N. A. Johnson, M. R. Penn & S. W. Effler 301
Iron content of sediment and phosphate absorption properties
by H. Danen-Louwerse, L. Lijklema & M. Coenraats 311
Phosphorus sedimentation in seven basins of Lake Lucerne, Switzerland *(abstract)*
by J. Bloesch 319
Phosphorus dynamics at the sediment–water interface in marine and freshwater environments during positive redox-turnover *(abstract)*
by A. Gunnars & S. Blomqvist 319
The phosphorus cycle in coastal marine sediments *(abstract)*
by B. Sundby, C. Gobeil, N. Silverberg & A. Mucci 320
Sediment–water exchange of phosphorus in Wadden Sea and North Sea *(abstract)*
by W. van Raaphorst, H. T. Kloosterhuis & A. J. M. Gieles 321
The release of phosphorus during sediment resuspension *(abstract)*
by R. Wisniewski 321
Application of new functional models for calculation of phosphorus fluxes from sediments *(abstract)*
by N. V. Ignatieva 322

Session IV: Water management measures focussed on the regulation of the release of phosphorus from the sediment, in relation to the functioning and restoration of the whole ecosystem
Effectiveness of Al, Ca, and Fe salts for control of internal phosphorus loading in shallow and deep lakes
by G. D. Cooke, E. B. Welch, A. B. Martin, D. G. Fulmer, J. B. Hyde & G. D. Schrieve 323
A new technique to reduce internal phosphorus loading by in-lake phosphate fixation in shallow lakes
by M. Quaak, J. van der Does, P. Boers & J. van der Vlugt 337
Eight years of internal phosphorus loading and changes in the sediment phosphorus profile of Lake Søbygaard, Denmark
by M. Søndergaard, P. Kristensen & E. Jeppesen 345
A comparison of sedimentary and diatom-inferred phosphorus profiles: implications for defining pre-disturbance nutrient conditions
by N. J. Anderson, B. Rippey & C. E. Gibson 357
Release rates and biological availability of phosphorus released from sediments receiving aquaculture wastes
by L. A. Kelly 367
How to quantify the impact of internal phosphorus loading on the phosphorus concentration in shallow lakes *(abstract)*
by P. Boers & J. van der Does 373

Phosphorus loading in the sediments of lake 'Izvorul Muntelui-Bicaz' from salmonid fish culture *(abstract)*
by B. Dorin-Sorin 373
Phosphorus release from inundated land of water supply reservoir *(abstract)*
by A. Filip, M. Ilić & D. Manojlović 374
Phosphate immobilization in peaty sediment *(abstract)*
by P. Keizer, J. Galas, A. Sinke & P. de Joode 374
The use of vegetated ditches for water quality improvement *(abstract)*
by A. F. M. Meuleman & B. Beltman 375
On the regulation of sediment phosphorus release by calcium-phosphorus minerals in Onondaga Lake, N.Y. (USA) *(abstract)*
by S. W. Effler, M. T. Auer, M. R. Penn & C. T. Driscoll 376
